Document Repository Guidelines of Use

The RSHGA Website Document Repository comprises a number of documents and resources that are made available for the furtherance of Highland Games. One of the benefits of Full Membership of the RSHGA is having access to the repository of supporting documents and to the archive of fifty thousand photographs from RSHGA events all across Scotland.

For most items in the repository Copyright sits with the RSHGA or a partner body so please contact us if you have a proposed use that would infringe that; we're happy for the items to be used by RSHGA Registered Athletes and Members, though not for personal gain.

Access depends on whether the document is locked or unlocked:

Unlocked Documents

Unlocked documents – showing the open padlock - are available for the use of everyone.

Locked Documents

Locked documents are available to specific groups who will be given the access passcode upon request. The group/passcode is indicated in the document title. for example: *'Collective Trademark Regulations - Members'* is a document restricted to RSHGA member events and the passcode provided to RSHGA members will unlock it and allow it to be viewed / downloaded.

Tip: When opening a document click on the "Download" box, don't hit the enter key on the keyboard.

If you belong to one of the restricted groups – Athlete, Member or General Council – and you need a passcode you can request it from the RSHGA Secretary or Treasurer

Email: secretary@rshga.org or treasurer@rshga.org
